HIGHER COURT REVERSES SHERWOOD-LOWELL DECISION

The judgment in the case of Sherwood vs. Lowell, which was appealed to the appellate court, and which was upheld by that court in its first decision, has been reversed on the second hearing of the case by that tribunal. Attorney Robert Duncan, who is representing Lowell, received word to that effect yesterday. Judge White gave judgment in favor of Dr. O. W. Sherwood against A. J. Lowell, of Westport, for $1,000. The case involved a rather delicate technical point.

J. W. Lowell, brother of A. J. Lowell gave Sherwood his note for $1,000, secured by mortgage, on March 30, 1908. The note and mortgage outlawed. Shortly afterwards Dr. Sherwood brought suit against A. J. Lowell, the complaint alleging that the latter had orally agreed to assume and pay the obligation. In return, it alleged, J. W. Lowell was to assign certain property to A. J. Lowell. The property was turned over to the Westport Mercantile Company, instead of to A. J. Lowell and in the complaint it is alleged that A. J. Lowell was virtually the Westport Mercantile Company. The defendant maintained that no such agreement was ever made and that, moreover, the mortgage had outlawed before the alleged agreement was said to have been made. There was no written document to support the contention of the plaintiff that the agreement had been made, such an agreement being required to be in writing to be upheld by the court.

The case has been of considerable interest to north coast residents, the principals being well known through out that section.

GOVERNMENT REQUISITONS N.W.P. FREIGHT CARS

The United States Government has notified the Northwestern Pacific railroad to furnish about 500 freight cars immediately for the purpose of transporting lumber for the barracks at the training camp at Palo Alto. If the cars are not ready all that are available will be commandeered. The railroad has stopped the shipment of wood, tanbark, ore and other commodities for the time being.

We understand that the Union Lumber Co., of Fort Bragg will furnish about 1,000,000 feet and this will take about 100 freight cars. About 4,000,00 feet will come from Humboldt county and it will take 400 freight cars. When these freight trains get started, which will probably be next week, they will have the right-of-way and possibly our passenger trains will be delayed on that account.

HAACKE RELEASED ON WRIT OF HABEAS CORPUS

Wm. Haacke, of Branscomb, who was sentenced to six months in the county jail for dispensing prune juice in dry territory, was released yesterday morning on a writ of habeas corpus, applied for by his attorney, Geo. Redwine. Haacke had been staying in jail pending an appeal of his case and the six months of his sentence had elapsed. There was a difference of opinion between the district attorney and Redwine as to whether the time he was staying in jail should apply on his sentence or not and the judge was called on to decide the controversy. A fine of $600 still hangs over Haacke's head, which the county may collect if it can.

RACING MEET TO START HERE ON WEDNESDAY

When "Pop" Durfee stretches out in the cart behind Pegasus with his white duster flying in the breeze,and old Jake Broilliar plies boot, whip and reins to Great Policy, and they send 'em lickety-split over the local race track next Wednesday, the common gasoline buggy will take a back seat and the sulky stars will shine in dazzling brilliance—for a week.

It will be a lively performance, this meet of record-breakers, which is being staged under the auspices of the California Fair and Racing Association, and trotting records, pacing records and possibly running records, will be torn to shreds before Governor Stephens officially closes the four-day racing carnival on the evening of Saturday, August 11th.

At Woodland last week State and Western records were reduced to ruins. In almost every event they toppled until the matter of record-breaking became the usual and not the unexpected. Woodland has a half-mile track, and with Ukiah's track recognized as the fastest half-mile dirt circle in the state, these record-markers are expected to become record-breakers and lower their own time in many of the events.

The first race on Wednesday will be the 2:11 pace in which the star performer will probably be White Sox, who was crowned pacing Queen of the West at Woodland last week when she paced three consecutive miles in 2:07¼, 2:06½ and 2:07¼, the fastest time ever stepped on a two-lap course west of the Rockies. Other entries in this event are Potreress, Rico, Emmaline Dillon, Mack Fitzsimmons, Ben Corbett, Jr., Mono Ansel, Pope Hartford, Merry Widow, A. B. C., Julia M., Teddy Bear and Bondelin.

The second event on Wednesday will be the 2:20 trot, for a purse of $400, and the entries include such well known names as Belmar McKinney, Carlos, Manuelito, Byron, Sadie View, Sheet Bow, Miss Frisco, Great Policy, Harry Policy, Future Tramp, The Demon, Howard's Comet, Ben Nutwood and Little Jack.

There also will be two running races on the opening day, and each day throughout the meet, for purses of $100 each.

The program for Thursday includes the 2:20 place, in which are entered Harry R., Zomar, Sheldon, Hal Logan, Miss Rico, Gay Tommy, Directress Mac, Lady Bell D., Beretta Dee, Sta[illegible] Glenwood Mac, Vero Hal a[illegible] Marie.

On the same day is the 2:14 trot and the three-year-old pace, the entries in the former being: Allie Lou, Virginia Barnetts, Zolock Zar, The Proof, Von Vres, San Felope and Eloise Dell.

Six other big events, with star performers, are on the books for the following two days, in addition to the running races, and the program here promises to be one of the best on the circuit.

REVISED LIST OF FIRST 550 DRAWN IN DRAFT SUMMONS

The master list for the draft arrived the first of the week, and Robert Duncan and Gordon Baechtel, of the board of exemption, have been busy checking up the numbers and sending out the notification cards. They have summoned 550 for the first examination, which will begin next Monday. The quota of this county has been raised 10 per cent, which increases it from 275 to 302. As a consequence it will probably be necessary to call more than 550 before the necessary number is obtained, as the exemptions will eliminate a considerable per centage. The county has been divided into two sections. Those who reside on the coast will report at Fort Bragg for exemption and also may get their exemption or discharge blanks there. The valley residents will report to Ukiah for examination.

There were not many mistakes in the list as announced in the papers, but there are a few, which the master list corrects. The revised list of the first 550 is as follows:

STEAM SCHOONER IS WRECKED AT POINT ARENA

Point Arena, August 1— The steam schooner Del Norte was wrecked here Sunday evening and it is believed that she is a total loss The seven passengers and crew of 12 men were saved.

The Del Norte struck Wash Rock at 7 p. m., in a fog, with the sea reasonably calm. Wash Rock is three miles north of Pt. Arena and two miles off shore. It was submerged when the Del Norte struck it. There was sufficient steam in the boilers to back the vessel off the rock and a short distance out to sea, after the accident. A big hole was made in the bow and the hull was filled with water in short order. The life boats were manned and all hands left the ship immediately.

The steamer Johan Poulsen, which was running abreast the Del Norte a short distance out to sea, responded to the distress signals and picked up the life boats, with the exception of the boat occupied by Captain Hoffman, of the wrecked craft and three of his crew, who remained by the distressed ship during the night.

Shortly after being abandoned, the Del Norte turned on her side and her deck load of lumber and 90 cases of butter washed away. The vessel later turned turtle, in which position she drifted into Look-Out point at 9 o'clock Monday morning.

The Point Arena life-saving crew responded to the "call for help" and also spent the night at sea in a row boat looking for the survivors, it is rumored that the gasoline launch at the station was out of working order.

The steamer Johan Poulsen also stood off shore until daylight.

The Del Norte's masts are said to have been broken off.

The steamer Greenwood is expected to arrive here tomorrow morning and make an attempt at salvaging the wreck, which might possibly be able to be repaired.

The Del Norte was built at Belvedere in 1890 and has since been on the run between San Francisco and Crescent City, carrying lumber and produce. She is a vessel 158 feet long, 32 feet in beam and 12 feet deep. Her gross tonnage is 450.

"JR. COLLEGE IMPOSSIBLE" SAYS BOARD OF TRUSTEES.

Some time ago in the columns of this paper it was announced, that the board of trustees of the Ukiah high school had decided to take advantage of the schoor law of California, by which a junior college consisting of two years of post graduate work accredited by all the universities of this state, can be established in a high school, provided, said high school district contains enough students who should attend such an institution, and is possessed with money to support such an institution. Since that time the board has held several consecutive meetings, and as the result, there will be no such organization extant here next year. The board has decided that owing to the fact that the increase of the attendance in the high school has necessitated the building of an addition to the present building, there would not be enough funds in the school treasury to warrant the establishing and equipping of a junior college. This announcement means that many who have planned on furthering their education by two years at least, will be forced either to forego further education, or move away to some town wherein that education may be forthcoming.

An adventurous woman, whose name we have not learned, traveling through the country in an auto, was arrested Monday by officers Marshal F. P. Conner and Deputy Marshal Sam Adcock, upon orders received from officials at Healdsburg.

It is reported she picked up two men at Ukiah, one with a shotgun and some money, the other with a set of upholsterers' tools. They arrived at Healdsburg Saturday night.

When the two men slept off the booze they had aboard and found the woman missing with their personal property, they swore out a warrant charging her with larceny.

Constable Petra arrived and took her back to Healdsburg where she will have to answer to the above charge.—Cloverdale Enterprise.

When Wm. Heryford, known to his friends as "Bill", became possessed with one Ford car, the same duly equipped with a sure enough self-starter and electric lights, his chest came out some thirty-nine inches. But that expansion was zero compared with that which he achieved when he announced that he was at last proud grandpa of a grandson.

The boy was born to Earl Gibson and wife, of Mill Valley at 11.30 on the evening of August 1, A. D. 1917, and weighed eight pounds net. Both mother and babe are doing nicely according to latest reports.

Fred Guldaeger, acting for the state veterinarian, tested all the cows whose owners so requested in this section the first of the week, finding no traces of tuberculosis in any of them.

INSIDE INFORMATION ON GERMAN CONDITIONS

All California will soon be discussing the memoirs of Ex-ambassador Gerard which will start in the San Francisco Examiner on August 5th. They will tell for the first time what Mr. Gerard saw and heard and did at the Imperial German Court from the time of his arrival in Berlin as the new American Ambassador for a few months before the war until his departure from Berlin after the declaration of war. Mr. Gerard resigned from the diplomatic service in which he received the highest honors in order to devote the time to writing these memoirs.

His retirement from the diplomatic corps and our war enables the Ambassador to speak with entire candor as a patriotic American citizen and to disclose hitherto hidden facts about the German Government and its relations with the United States and other powers.

The grave and sometimes startling revelations will have the high authority that always attaches to words of an Ambassador who is the personal representative of the President of the United States and who deals personally with the sovereign of the country to which he is accredited.

In the case of Ambassador Gerard, all his statements of facts have the added weight of a great lawyer, who was Justice of the Supreme Court of New York before he was Ambassador. He deals with facts and evidence and events with the precision and exactness of a great lawyer.

Judging from the general widespread interest that the announcement of these memoirs has engendered this serial as published in the San Francisco Examiner will be more widely discussed than any other book for many years.

"DAUGHTER OF THE GODS" COMING TO VICTORY

There are many wonderful facts about the production of the wonderful picture "A Daughter of the Gods' which is coming to the Victory Sunday, which make it stand out above other pictures of the same class. Human life was risked many times in taking the hazardous scenes which make this picture a thriller beyond compare. Thousands of dollars were spent, and an entire island in the Caribean seas was given over to the production of this masterpiece of the Fox Corporation. It is a picture that both young and old can enjoy. It is not only for children, but for the older people, whose minds can grasp the wonderful scenes presented as well as the more intricate details of the plot.

In witnessing this production spectators are asked to forget, for the time being, that they are busy, practical men and women, and to become, if only for one night, children again.

For childhood is a blessing that comes but once in a life, and is never appreciated until it is too late to fully realize its joys. Let us return to our mother's knee therefore with the fairies and witches, and gnomes and elves, and be as little children to enter a heaven of rich enjoyment.

Thus for three enchanting hours do we leave this world and all its cares behind.

All the scenes of the picture were taken in the Island of Jamacia by special permission of the British Government.

ALL-MEENDOCINO TAMES SEBASTAPOL CRACK NINE

A team composed of Ukiah, Willits and Talmage ball players—some combination at that— managed to add last Sunday's game to the column of successes already amassed by the northern teams. The Ukiah team, (so-called although there were but few regulars thereon) massed only ten hits throughout the nine innings but through some good judgment and speedy base running made those hits count.. The Sebastopol aggregation netted twelve hits off of Broddus's offerings, but were unable to bunch the same in such a manner as to bring about results. The final score was fourteen to seven in favor of the local boys.

DEVOE WILSON PASSED AT PT. ARENA SUNDAY

Point Arena, August 1—Mendocino county has lost another native born pioneer in the passing of Devoe Wilson at the family home here Sunday.

Deceased was 48 years old. He resided in the Westport section for a good many years and was well known all over the coast.

A widow and five children survive.

Funeral services were held here Tuesday afternoon under the auspices of the local Native Sons and Masonic orders.

MANY GARMENTS FINISHED BY RED CROSS WORKERS

Activities at the Red Cross headquarters continue with unabated interest.

Cutters are again busy on new goods received while the sewing circles are every day returning bundles of finished garments.

The largest returns up to Wednesday night have been made by the M. E. S. Church Circle, Mrs. Puett, chairman, which has brought in sixty-two garments; the Christian Church Circle—Mrs. Davidson,chairman, 41 garments; the M. E. Church circle-Mrs. Toles chairman, 36; the S. and C. Club, Mrs. Donohoe, chairman, 15 garments. These last were all large pieces—hocpital shirts; the others include both large and small. Other circles have made smaller returns but will come in with big bundles when the work they have out is completed.

Some are working independently and are making splendid returns.

The Ukiah Steam Laundry has handled, free of charge, ninety seven pieces of goods, donated by S. Cohn from his fire stock.

Materials are now ready for knitting and many have begun this work.

The simplest pieces are wash clothes made of white Dexter cotton, No. 6, four ply. Use No. 4 bone needle and knit 10 inches square. Knitters furnish their own material for these, but it is furnished by the chapter for larger pieces.

Let every one do her little and much will be accomplished.

He Can't Afford It

Unless he is independently wealthy, there isn't a man in this country who can afford to be careless about clothes.

Clothes mean such a lot and cost so little that every man should—and can—be well dressed.

No trouble at all to you or us, to fit you--perfectly--in a Michaels-Stern Fall Suit or Overcoat. And, likewise to fit your purse.

Did you ever notice how much better men dress now than they did ten--or even five --years ago?

That's because they realize more and more that good clothes mean a big lift on the road to success.

A little careful buying once in a while keeps you well dressed every day in the year.

And we'll prove that statement at very small expense when you come to see our new Michaels-Stern Fall Clothes.

How will tomorrow suit you?

McNALLY FIRST TO GET INDETERMINATE SENTENCE

To Fred McNally belongs the distinction of being the first to go to San Quentin from Mendocino county under the indeterminate sentence law, which went into effect last Friday. It is a question whether Fred appreciates the honor which has been thrust upon him, however. Few of us would if we were in his place.

McNally pleaded guilty of forgery committed at Willits several weeks ago. In sentencing him Judge White committed him to San Quentin, without specifying any length of time he should serve. When the state parole board thinks he is reformed, they may turn him loose.

The new law applies to all crimes except that of murder. Under its provisions the sentencing judge has nothing to do with the length of the sentence. The new law contemplates reforming the prisoner rather than wreaking vengeance on him.

RED CROSS WORK IN NEED OF FUNDS

The Ukiah Chapter of the Red Cross are pleased but far from satisfied with the results of the membership campaign which was carried on some time ago.

Up to the present 539 persons have applied for membership in the local chapter. Of these 411 have paid up their dues. The ones who have not paid as yet should give the matter their immediate attention.

To date there have been paid in dues the sum of $704. Of this amount $495.50 goes to the headquarters of the Red Cross at Washington and the remainder belongs to the local chapter. To date the individual donations made to the chapter here total $600, and through various clubs and benefits $116.20 more has been realized, making a total of collections amounting to $1,421.20. Out of this amount all but $495.50 can be applied to purposes of the local chapter.

Here in Ukiah no attempt has been made to add to the national fund of $100,000,000 recently raised by the Red Cross. This was owing to the fact that the literature and information regarding the one hundred million dollar drive was not received here in time.

Up to the present the local chapter spent $152.00 for the relief of the local fire sufferers, and approximately $200 for military relief. Additional materials for military relief have been ordered but the demands are so great that each community must wait its turn.

There are now over a dozen sewing circles hard at work. And there is almost an unlimited amount of work for individuals and a sufficient number of machines to keep them busy. The headquarters are on the first floor of the public library.

Just now there is an additional call for Red Cross aid to relieve the sufferers of the earthquake in San Salvador. Immediately after the news was received of this earthquake, the American National Red Cross at Washington telegraphed to the Red Cross supply service at San Francisco to obtain shipping space and to ship relief supplies, consisting of drugs and medicines, corrugated iron roofing and lumber for building temporary houses, clothing and tents.

There was no time to first solicit funds for this purpose, so the American Red Cross has advanced these funds and would be glad to receive contributions from the public to cover these outlays and for further relief in this stricken territory. War relief funds cannot be used for this purpose. It is therefore necessary that special contributions from the public be made to cover. Checks for this purpose may be sent to Robert Duncan, the treasurer of the local chapter, or to Chas. M. Mannon the chairman, who will see that proper acknowledgement is made.

UKIAH, CALIFORNIA, FRIDAY, AUGUST 3, 1917

AMERICAN EFFICIENCY

German efficiency has been held up as a degree of excellency unattainable by a Democracy. The accomplishments of the United States since April 5th last refute the truth of the claim. In the short space of time since that day the United States has accomplished the following:

Declared a state of war as existing between this country and Germany:

Seized 91 German ships and begun repair work on them:

Authorized unaminously a war fund of $7,000,000,000:

Appropriated $5 000,000,000 for merchant shipping and as much for air fleets:

Agreed to loan our Allies $3,000,000,000 and advance them a large proportion of that sum:

Passed a selective draft law and in a single day registered nearly ten million men for military service:

Enlisted 600,000 volunteer soldiers in the regular army and in the National Guard of the States:

Sent a Commission to Russia to aid in Democracy there and a body of railroad men to Russia and another to France to advise and assist in railroad transportation in those countries.

Begun the construction of 32 camps for our soldiers:

Sent to England a fleet of destroyers and to France a detachment of troops;

Authorized and now enforcing embargo whereby our enemies will receive no more food or material from us:

Passed a food conservation law:

Organized many voluntary commissions and boards who are aiding the Government and the people in speeding up of work conservation of food, and other national movements:

Drafted by lot 687,000 men for military service.

While the Government has accomplished these things the American people have loaned the United States $2,000,000,000 and offered $1,000,000,000 more, over four million citizens subscribing to the loan.

In addition they have given over $100,000,000 to the American Red Cross and $3,000,000 to the Young Men's Chrictian Association;

All these things were accomplished while our soilwas not invaded or even threatened with invasion and without any disturbances of business conditions. All was done with the calm determination and judgment of an earnest, patriotic people performing a service for civilization and mankind and maintaining the rights, the dignity, and the honor of the greatest nation in the world.

The German leaders derided America's entry into the war as a bluff. This is our answer.

The German Imperial Government was nearly fifty years in perfecting its military efficiency. In less than four months the American Republic has made such strides as to indicate that in less than two years' time the boasted superiority of German efficiency will have been discredited. There is such a thing as American efficiency, and time will prove that German efficiency cannot withstand it, fighting as it is for liberty, justice, and humanity;

VAST SUMS ARE EXPENDED YEARLY IN CALIFORNIA

For the fiscal year which ended June 30, 1917, State Controller J. S. Chambers issued 34,233 warrants representing a grand total of $116,-938,139.71. This huge expenditure represented payments for all purposes such as the state's contribution for the support of the schools, highway work, bond refunds to counties and cities as well as the expenses of the state government proper which run somewhere around $20,000,000 a year.

The total expenditures in California last year by the state, the counties and the cities amounted to $176,948,492.34 and the receipts to $181,300,935.07. These figures represent expenditures and payments for all kinds of purposes affecting the three forms of government.

From 1911 to 1916, state expenditures increased 100 per cent, county expenditures 106 per cent and city expenditures 49 per cent, making an average of 84 per cent against an average of receipts of 79 per cent. The reason the city increase is at a comparatively small percentage is because it already was very high in 1911. During this period, from 1911 to 1916 inclusive, the population of the state increased between 25 per cent and 27 per cent, and the total of the assessment rolls of the counties 37 per cent.

As an indication of where some of the money went, the three forms of government in California expended in 1916 upon highway and street work $33,544,733.52; over $10,000,000 in interest upon a total bonded indebtedness of $255,041,735.33, and for educational purposes $37,450,561.16, or more than $12 per capita.

SEA CREATURES OFFER INHAUSTIBLE FOOD SUPPLY

The sea coast of California swarms with good food that is going to waste because people have not learned to use it. Even sharks are edible, and are considered delicious by some foreign-born American citizens. The piers and rocks swarm with mussels. As much as 500 pounds of these bivalves often adhere to a single pile. Mussels are easy to harvest, the supply is almost unlimited, stewed they are delicious as clams or oysters and they are even more toothsome baked.

It is the meat suppry that the nation's food supply is most difficult, the University of California has pointed out to the committee on resources and food supplies of the California State Council of Defense, and so the university urges that people should stop thinking of fish as something to be eaten only on Friday, and make it a more frequent article of diet. Salting, drying, canning, and smoking of fish represent an industry only in its infancy in California. Vast quantities of Pacific coast fish ought to be exported to the Mississippi valley. Fish—fresh, salted, dried, canned and smoked—is a staple article of diet in England, Norway, Sweden, and other European countries. The time is coming when America will make better use of the unexampled riches of the fishing grounds of this coast. A multitude of types of fish now not recognized as good food will be proved by proper methods in canning, to be an excellent source of food.

Miss Hazel Poage returned Wednesday evening from a visit with relatives in various parts of the state.

ME-ANDERINGS

(By Me)

(With apologies to William F. Kirk)

When Grecian maidens danced around
And played a game of ball:
Tobacco had not yet been found,
And was not known at all;
And yet in modern times to play
The grand old national game
Each man must smoke the papers say
A pipe full of the same.

When James Fitzjames set out to chase
The mang-antlered deer,
How did he do without a case
Of foaming, cooling beer.
For now the hunter of the roe
Must have a case for luck,
Ere he can tell the gentle doe
From the huge elkslate buck

When Jonah started out to fish
He didn't stop and wait,
Till some good friend produced a dish
Discretely labeled "Bait."
And yet the boys in present days
When fishes lie in wait,
Must often pause the jug to raise
And nibble at the "Bait."

So sportsmen heed this admonish
You must quite often stray,
(If you would hope to hunt and fish)
From the straight and narrow way.

HOPS PICKING UP

The hop market has come out of the decline in which it was placed by the war and the proposed boundry law, and is now said to be on the ascent. During the past week local hop men have refused offers of 12 and 12½ cents per pound for hops. The price offered for Mendocino county hops shows that our product is regarded as superior to that grown in Sacramento, where the top market price is only 12 cents

During the early part of this week the market soared to 14 and 15 cents, and as a result some 350 bales have been purchased from owners in this vicinity. Even the rise in price, however, has failed to move most of the hop men who are holding for a top price of 20 cents or thereabouts.

E. J. Sanford, buying for C. C. Donovan, bought 250 bales from Clarence Cox at 14½ cents, and 100 bales from Frank Cunningham at 15 cents.

MRS. ELIZABETH EVANS DIES AT SANTA ROSA

Mrs. Elizabeth J. Evans, formerly of Ukiah, but for some time past a resident of Santa Rosa, passed away Sunday afternoon as the result of a sudden illness, being taken sick the same morning.

The remains were brought to Ukiah, where the funeral services were held from the Episcopal church Wednesday afternoon at 2 o'clock.

Mrs. Evans was a native of Prince Edward Island, aged 51 years. She leaves to mourn her loss, Nelson Evans, of Sausalito, Ralph Evans, of Sonoma, and Eugene, William, Geraldine, Lillian and O. R. Evans, of Santa Rosa.

JUDGMENT AGAINST HURLEY

Judge Jim Hurley has been handing out sentences of different sorts for some time, but has at last himself come up for judgment before old Judge Stork, and was handed a decree which condemns him to hard labor for the remainder of his natural life. The judgment arrived Thursday morning at 7 o'clock in the perzon of a 12½ pound boy.

The judge has already decided to send the young justice to Stanford, instead of U. C., with a post graduate course in some of the eastern colleges. Mrs. Hurley and son are both doing nicely.
